Students were given dictation which they wrote on slate. Next was the yoga class, where tiny tots practiced yoga. It has been inculcated as a good habit, which helps in keeping the body & mind healthy. Leap Start class was there for the students' physical activity. Mathematics class was activity based, where students learned about various shapes through flash cards, red and green circles and a number activity was done with *Ganit Mala*. An extension activity was also done. EVS class where the students had learnt parts of the body, a question-answer session regarding sense organs and cleanliness was held. Then there was an activity related with the colours. The PREP SHOW ended with a School Song followed by the National Anthem. It was a great success as parents appreciated the students' routine and efforts put in by the school

All the staff members put sesame seeds in the bonfire as a part of an ancient tradition. The peanuts and *rewris* were distributed among students.
